

Well guys, the match this month was a "good news, bad news" story. Good news, the day started rather gloomy with an overcast sky and light winds which gave way at match time to clearing skies and the ever switching "Palo Alto" winds which increased in velocity as the match progressed. By the time we got to the 100 yd. stage it was switching so fast it was almost impossible to keep up with. But a day shooting is better than most other things we could have been doing. However, despite the wind, some very respectable scores were posted. Chuck Cazenave took 1st. place F-Class with an 1194-114X. Don Geraci was second with an 1192-12X. Bobby McKee was third with an 1188-108X.

On the Prone side, Meaux Marrero took first place with an 1175-48X. John Laws was second with an 1173-45X. David Bay was third with an 1161-37X. We also had a junior shooter shooting prone for the first time--Mr. Sightler. However, he did not turn in his score card so I don't have a score to post for him. This is the second match he has shot, and has progressed from shooting off of a rest to prone. Keep it up young Mr. Sightler.

Our turnout was lower than last month due to some scheduling conflicts. Also, the ammo situation continues to plague a lot of the "little gun" shooters. Hopefully, this will ease up before too long.

The Candy Match was won by Chuck Cazenave after a shoot off with Meaux Marrero. To show you how hard the wind was blowing and switching, the match was won with just two hits. Congrats to Chuck for the sweep.

The real highlight of the day was the return of Robert Langley who has almost completely recovered from a near fatal heart attack suffered early last month. Great to see you Robert. Continue your recovery and get back to shooting with us again. Things have not been the same without you.

Thank to all of you for supporting us in this match . I look forward to seeing you again next month.

Richard

F-Class

Competitor:	Match 1	Match 2	Match 3	Aggregate
Cazenave	400-40X	398-38X	396-36X	1194-114X - 99.5%
Geraci	399-39X	399-39X	394-34X	1192-112X - 99.3%
McKee	398-38X	399-39X	391-31X	1188-108X - 99%
Bordelon	398-39X	397-36X	190-23X	1185-98X - 98.7%

Prone

Marrero	389-8X	392-23X	394-17X	1175-48X - 97.9 %
Laws	393-14X	392-21X	388-10X	1173-45X - 97.7%
Bay	388-16X	390-1X	383-10X	1161-37X - 96.7%
Altazin	375-5X	382-13X	383-10X	1140-28X - 95%
