

I would like to thank all of you who came out to shoot in our match. Despite the issues with ammo right now, we had our largest turnout so far with 15 shooters. I especially want to thank the guys from Nicks' who came over to shoot after their match. We also had our first lady shooter this time around Mrs. Paulette Marrero who shot very well considering this was her first competition.

Also, Thank you Robert for bringing the guys over from Nick's It won't be long now till your're back in the saddle. I think everybody had a good time. The weather was hot, but other than that, conditions were pretty favorable for the "little gun".But, as always, at PA, you had to pay very close attention to mirage and the slight wind changes which were constantly switching which maybe, explained the lower scores shot on that tough Intl' target at 100 yds. The bench guys seemed to have those little 50 yd. targets figured out as there were a number a clean targets fired. The prone guys also did good. But on a slightly more generous target which is still no gimme with iron sights.

Thanks again to everyone for coming out. Hope to see you again next month.

Richard
